

TEMPORARY
AMENDED
APPLICATION FOR PERMISSION TO CHANGE POINT OF DIVERSION, MANNER
OF USE AND PLACE OF USE OF THE PUBLIC WATERS OF THE STATE OF
NEVADA HERETOFORE APPROPRIATED

No. 74680T

Date of filing in State Engineer's Office AUG 25 2006

Returned to applicant for correction SET 20 2006

Corrected application filed AUG 31 2006

Map filed OCT 17 2006 under 74679

The applicant **Homestake Mining Company** hereby makes application for permission to change the **point of diversion, manner of use of a portion** of water heretofore appropriated under **Permit # 71234**

1. The source of water is **Underground**
2. The amount of water to be changed **0.2 c.f.s. (144.8 AF)**
3. The water to be used for **mining, milling, dewatering and domestic**
4. The water heretofore permitted for **mining, milling and domestic**
5. The water is to be diverted at the following point **within the NE $\frac{1}{4}$ SE $\frac{1}{4}$ Section 10, T.19N., R.53E., M.D.M. from which the S. $\frac{1}{4}$ -corner of said Section 10 bears S.49°17'W., 2,558 feet distant**
6. The existing permitted point of diversion is located within **SE $\frac{1}{4}$ SE $\frac{1}{4}$ Section 10, T. 19N., R. 53E., M.D.M., from which the S $\frac{1}{4}$ -corner of said section 10 bears S.75°21'W., 2,253 feet distant**
7. Proposed place of use **Same as existing**
8. Existing place of use **W $\frac{1}{2}$ Section 2, all Section 3, E $\frac{1}{2}$ Section 4, NE $\frac{1}{4}$ Section 9, all Section 10, W $\frac{1}{2}$ Section 11, NW $\frac{1}{4}$ Section 14, N $\frac{1}{2}$ Section 15, all in T.19N., R.53E., M.D.M.**
9. Use will be from **January 1 to December 31** of each year.
10. Use was permitted from **January 1 to December 31** of each year.
11. Description of proposed works **drilled and cased well; submersible pump and motor, storage tanks, pipeline system to place of use.**
12. Estimated cost of works **\$100,000.00**
13. Estimated time required to construct works **one year**
14. Estimated time required to complete the application of water to beneficial use **five years**
15. Remarks: **A new dewatering source is identified at the proposed point of diversion.**

Protested _____

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This temporary permit to change the point of diversion and manner of use of a portion of the waters of an underground source as heretofore granted under Permit 71234 is issued subject to the terms and conditions imposed in said Permit 71234 and with the understanding that no other rights on the source will be affected by the change proposed herein. The well shall be equipped with a 2-inch opening and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.

This temporary permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

This temporary permit will allow the permittee to remove water from a dewatering well for a mining project. It is understood that any water pumped from the well as a result of this operation will be used first by the permittee for mining, milling, domestic and other related mining uses within the described place of use of this temporary permit.

The total combined duty of water under Permits 62027, 62028, 64439, 71234, 73204, and Temporary Permits 73433T, 73434T, and 74680T shall not exceed 802.41 acre-feet annually.

Monthly records will be kept of the following: the amount of water pumped from the mine; the amount of water used for mining, milling and domestic purposes; the amount of water sent to the Rapid Infiltration Basin discharge system or other authorized discharge system; and the estimated amount of water recharged to the groundwater system. These records must be submitted to the State Engineer on a quarterly basis, within 15 days after the end of each calendar quarter. A method that estimates the amount of evaporative losses from the discharge system will be submitted with the monthly report. The evaporative losses will be considered as a part of the duty for consumptive purposes.

This temporary permit is issued under the preferred use provisions of NRS Chapter 534. The manner of use of water under this permit is by nature of its activity a temporary use and any application to change the manner of use granted under this permit will be subject to additional determination and evaluation with respect to the permanent effects on existing rights and the resource within the ground water basin.

The State Engineer retains the right at any time to require the permittee cooperate in the funding of additional monitoring and modeling by an independent third party. The State Engineer retains the right to impose future conditions as necessary upon review and evaluation of all data submitted and reported on the quarterly report. The State Engineer retains the right to regulate pumping from the dewatering project and/or any other groundwater withdrawals herein authorized to protect the public interest and existing rights.

The issuance of this temporary permit does not waive the requirements that the permit holder obtain other permits from the State, Federal and local agencies and is specifically issued contingent upon approval by the Nevada Division of Environmental Protection of the dewatering discharge project.

This temporary permit is issued with the understanding that no secondary applications will be issued on any water not infiltrated or injected.

(Continued on Page 3)

All of the above stated conditions are issued subject to having no adverse impacts on existing rights.

A monthly report shall be submitted to the State Engineer within 10 days from the end of each month which shall include the amount of water pumped from the well and the amount of water used.

This temporary permit is issued pursuant to the provisions of NRS 533.345 Section 2 and will expire on December 12, 2007 at which time all rights herein granted shall revert to the right being changed by this temporary permit.

The amount of water to be changed shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.2 cubic feet per second, but not to exceed 144.8 acre-feet annually.

Work must be prosecuted with reasonable diligence and proof of completion of work shall be filed on or before:

N/A-Temporary

Water must be placed to beneficial use and proof of the application of water to beneficial use shall be filed on or before:

N/A-Temporary

Map in support of proof of beneficial use shall be filed on or before:

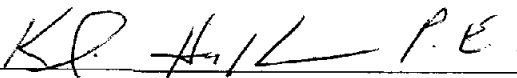

N/A-Temporary

IN TESTIMONY WHEREOF, I, TRACY TAYLOR, P.E.,

State Engineer of Nevada, have hereunto set

my hand and the seal of my office,

this 13th day of December, A.D. 2006

By Deputy State Engineer, Kelvin Hickenbottom, P. E.
